Subject: Board Resignation

Good afternoon,

I support the goals of the LCA. I came into this board role with some assumptions about how board work would be done, based on other boards I have been on. As the vision for LCA board participation has come into focus, it is not very similar to my other board experiences. The result is that I think I am not a good fit for this board, and I have concluded that I am not going to be able to contribute meaningfully. Consequently, I hereby resign my position on the LCA board. I will remain a general member of the LCA.

I wish you all the best in finding additional board members who can support the LCA goals.

Regards,
Steve McConnell
